*Tables of Laguerre Polynomials and Functions* V.S. Aizenshtadt 2014-06-20  
Tables of Laguerre Polynomials and Functions contains the values of Laguerre polynomials and Laguerre functions for  $n = 2, 3, \dots, 7$ ;  $s = 0(0.1) 1$ ;  $x = 0(0.1) 10(0.2) 30$ , and the zeroes and coefficients of the polynomials for  $n = 2 (1) 10$  and  $s = 0(0.05) 1$ . The book also explains the Laguerre polynomials, their properties, Laguerre functions, and the tabulation of the Laguerre polynomials and functions. The book contains three tables: tables of values of Laguerre polynomials and functions, tables of the coefficients of the polynomials, and tables of their roots. The first table consists of six parts arranged successively in the ascending order of the degree  $n$ . Researchers have calculated the tables for a wider range of values of the parameters  $n$ ,  $s$  and  $x$  ( $n = 2(1) 10$ ,  $s = 0(0.05) 1$ ,  $x = 0(0.1) 10(0.2) 30(0.5) 80$ ) using computers at the Institute of Mathematics and Computer Technology of the Byelorussian Academy of Sciences and the Computer Centre of the Academy of Sciences of the U.S.S.R. Scientists and investigators at computer centers, research institutes, and engineering organizations will find the book highly valuable.

**County and City Extra 2017** Deirdre A. Gaquin 2017-12-18  
When you want only one source of information about your city or county, turn to *County and City Extra*. This trusted reference compiles information from many sources to provide all the key demographic and economic data for every state, county, metropolitan area, congressional district, and for all cities in the United States with a 2010 population of 25,000 or more. In one volume, you can conveniently find data from 1990 to 2015 in easy-to-read tables. No other resource compiles this amount of detailed information into one place. Subjects covered in *County and City Extra* include: • Population by age and race • Government finances • Income and poverty • Manufacturing, trade, and services • Crime • Housing • Education • Immigration and migration • Labor force and employment • Agriculture, land, and water • Residential construction • Health resources • Voting and elections  
The main body of this volume contains five basic parts and covers the following areas: Part A-States Part B-Counties Part C-Metropolitan areas Part D-Cities with a 2010 census population of 25,000 or more Part E-Congressional districts  
In addition, this publication includes: • Figures and text in each section that highlight pertinent data and provide analysis • Ranking tables which present each geography type by various subjects including population, land area, population density, educational attainment, housing values, race, unemployment, and crime • Multiple color maps of the United States on various topics including median household income, poverty, voting, and race  
Furthermore, this volume contains several appendixes which include: • Notes and explanations for further reference • Definitions of geographic concepts • A listing of metropolitan and micropolitan areas and their component counties • A list of cities by county • Maps showing congressional districts, counties, and selected places within each state

**Nursing Outcomes Classification (NOC), Measurement of Health Outcomes, 5** Sue Moorhead 2013-01-01  
Suitable for clinicians, students, educators, researchers, and administrators in various clinical, educational and research venues, this title includes specific indicators that can be used as intermediate outcomes or to evaluate and rate the patient in relation to outcome achievement. This text standardizes the terminology and criteria for measurable or desirable outcomes as a result of interventions performed by nurses. Clinicians, students, educators, researchers, and administrators in a

variety of clinical, educational and research venues can use the classification, which serves as an important focus for both cost containment and effective care. This new edition is even more comprehensive and includes specific indicators that can be used as intermediate outcomes or to evaluate and rate the patient in relation to outcome achievement.

**Nursing Outcomes Classification (NOC) - E-Book** Sue Moorhead 2014-04-14  
Promoting safe and effective nursing care, *Nursing Outcomes Classification (NOC)*, 5th Edition standardizes the terminology and criteria needed to measure and evaluate outcomes that result from nursing interventions. Nearly 500 research-based nursing outcome labels – including 107 that are NEW to this edition – help to standardize expected patient outcomes. Specific indicators make it easier to evaluate and rate the patient in relation to outcome achievement. Written by an expert author team led by Sue Moorhead, this book is ideal for practicing nurses, students, educators, researchers, and administrators seeking to improve cost containment and patient outcomes. 490 research-based nursing outcome labels promote standardization of expected patient outcomes. Definitions, lists of indicators, publication facts lines, and references provide all of the information you need to understand outcomes. A label name, definition, set of indications, 5 point Likert measurement scale, a publication facts line, and selected references are presented for each outcome. Linkages between NOC outcomes and 2012-2014 NANDA-I Diagnoses and Functional Health Patterns promote clinical decision-making. Core outcomes are included for specialty practice across care settings. 107 NEW outcome labels allow you to better define patient outcomes that are responsive to nursing care. NEW! Health Management class added to the NOC taxonomy includes outcomes that describe the individual's role in the management of an acute or chronic condition.

**The State of Hawaii Data Book** Hawaii. Department of Planning and Economic Development 2001  
The State of Hawaii Data Book is an official summary of yearly statistics on the social, economic, and political organization of Hawaii. It is generally organized so as to facilitate comparison of state and national data. It places the major emphasis on statewide data and less so on counties, islands, urban places, and smaller areas.
